## Bed Bug Prevention Tips

- Vacuum suitcases after returning from a vacation.
- Check your sheets for tell-tale blood spots.
- Consider bringing a large plastic trashbag to keep your suitcase in during hotel stays.
- Regularly inspect areas where pets sleep for signs of bed bugs.
- **Never bring second-hand furniture, especially mattresses and box springs, into a home without thoroughly examining for signs of a bed bug infestation. You might consider having a pest control professional inspect the furniture as it is difficult to detect an infestation without training.**

*Bed bugs are elusive creatures, so it is imperative to seek professional assistance to address an infestation.*
